

V-LUE SPZ

V-LUE

HANG DRIED | HAND TRIMMED | SLOWLY CURED | HAND PACKED | NON-IRRADIATED

Spritzer is a well-balanced hybrid distinguished by its layered and refined terpene profile. Bright citrus, orange zest, and grapefruit notes lead the aroma, supported by sweet, fruity undertones and a subtle gassy, spicy nuance characteristic of MAC- and Runtz-derived genetics. The result is a clean, complex bouquet that appears fresh, vibrant, and well-rounded.

The flowers develop a medium to compact structure, displaying light to medium green hues and a dense coating of finely formed, crystal-like trichomes, visually reflecting the cultivar's premium quality. The intense and multidimensional aroma profile highlights both the genetic background and the notable terpene expression of the strain.

Patient-reported experiences have associated this variety with a clear-headed and gently uplifting impression, as well as a sense of mental clarity and light physical relaxation. The overall profile is often described as balanced and smooth, making Spritzer a cultivar frequently referenced for daytime to early evening use.

LINEAGE

Runtz X Grape Pie X MAC
(Miracle Alien Cookies)
